Personalized Learning

ADVANTAGES School International (ASI) provides an education experience that keeps the individual student at the center of his or her learning. The program contains embedded scaffolds and instructional support that is rigorous and accessible to all students anytime, everywhere. ASI is personalized to each learner's ability and level of academic readiness.

The one-size-fits-all practices that define the traditional classroom have given way to new approaches in both curriculum and instruction. ASI's digital environment provides the flexibility to meet the needs of all learners, at a pace that works with the individual student's lifestyle. To address students' individual learning needs, ASI offers more than 400 courses for grades 6-12. The ASI course catalog includes comprehensive grade level core courses, honors, advance placement as well as foundation and literacy advantage courses for ESL students and students seeking remediation and/or credit recovery.

ASI is a fully accredited program that is self-paced and 100% online. Our courses are all listed on the NCAA approval list for our college bound athletes.

Support for Teaches & Students

The teaching staff at ASI share in the common vision admission statement—to bring quality education to students everywhere. Our teachers are highly qualified to teach in their academic area. Most of our staff hold advanced degrees in their discipline and have experience in both online and traditional classroom settings.

Post Secondary Success

ASI offers unique academic tracks to help every student meet their individual goals and plan for their path beyond high school.

College Preparatory track is for students needing a more rigorous study program in preparation for post-secondary education.

General Studies diploma is for students who are not planning on attending a four-year university directly out of high school. With the general studies diploma, students are able to attend a community college or trade school, join the military, or go directly into the work force. The requirements for our general studies diploma are significantly less than the college prep diploma.
