Dual Credit

What is your plan for college?

ADVANTAGES School International (ASI) offers a dual credit program that gives current high school students the opportunity to take college classes while earning their high school diploma. High school students can take college classes for individual accomplishment, dual credit, get a head start to college, or all of the above.

Through the ASI dual-credit program, students earn credit that goes toward their high school requirements; and at the same time, they also earn college credit.

Who can enroll in Dual Credit courses?

Dual credit courses are available for ASI students in the 11th and 12th grades. Students must have a 3.0 GPA and must meet the pre-requisites.

Dual Credit vs. AP courses

AP courses allow students to take college-level courses taught by a high school teacher, with the potential for students to earn college credit and or course placement based on the results of an AP exam. Determination of scores for course placement and college credit is determined by the college/university to which the student sends the results of the AP exam.

ASI Dual credit courses are college classes taught by a college instructor. They provide an opportunity to earn college credit while still in high school. Students taking classes for dual credit should work closely with ASI's enrollment team to ensure appropriate courses are selected.

ASSIST Education is at the forefront of innovation, leveraging the industries only fully integrated management system that allows K-12 and adult education institutions to offer and deliver multiple accredited programs in a variety of blended learning modalities at a fraction of the cost of the traditionally implemented programs.
