SCHOOL INTERNATIONAL

**American
University Pathway
program**

What's your plan for college?

ADVANTAGES School International (ASI) can support your academic roadmap as early as Elementary School and through your secondary education process. ASI is fully accredited for grades K-12 with the opportunity to earn a High School diploma that guarantees acceptances to current college and university partnerships. With documented transfer agreements to 15 universities across the United States, ASI ensures your academic future without the stress and at a pace that works for you.

English Language Learning Program

Establish your English language proficiency with the ASI placement test. Next, use the program coursework to develop your English mastery for eligibility into the ASI online high school diploma program. The virtual online English Language Learning program is delivered month to month, so you only take what you need. All assessments are built into the program for ease-of-use and flexibility.

US Dual Diploma Program

Enroll with one of ASI's international partner schools and take 6 online courses alongside your "in country" high school coursework. Upon completion, you will have earned two diplomas: one from your home county, and a College Preparatory Diploma from the United States.

2+2 University Program with Truckee Meadows Community College

The ASI College partnership agreement allows you to take the first 2 years of college level courses, online, from home. Transfer directly to one of 15 universities in the U.S. for the final 2 years, guaranteed. ASI graduates are guaranteed acceptance to this 2+2 program and have dual credit opportunities while enrolled at ASI to further shorten the path to a bachelors degree.

Traditional University Program (4-year program)

ASI's 4-year University partner agreement gives acceptance to ASI graduates holding a 3.0 grade point average while meeting the ASI graduation requirements. Of course, you are still eligible to apply to any college or university worldwide with the ASI fully accredited diploma program; it just got a whole lot easier.
