

All users: Messaging updates

We have improved the time stamps for all ASSIST messages when replying and forwarding a message.

Administration: Custom Report Upgrades

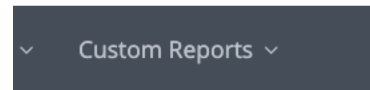

Parent Report: Student name, ID number, email, and status are now viewable next to the parent information

Full Progress Report: For schools using the Apex curriculum, you can now download full progress report metrics from Custom Reports.

Grade Report: Additional fields filter has been added to this report.

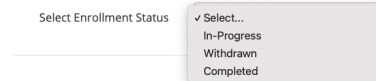

Transcript Report: The ability to see "course name on transcript" will be present, in the event the name is modified from the original course naming convention.

Transcript Report: The additional fields filter has been added to this report.

Administration: Student Status

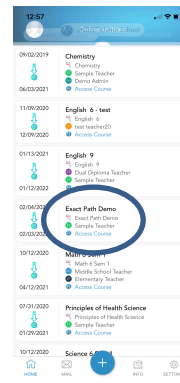

Dropped > Withdrawn: The dropped status has been retired and renamed as "withdrawn." All previously dropped sections have been changed to withdrawn in all schools. Withdrawn sections can be shown on the student transcript.

Content Updates

Exact Path: Our prescriptive ELA, Math, and Reading content support is now supported on the ASSIST mobile app. With one click the user can access their Exact Path courses via mobile device.

Apex: Improved integration functionality for section and enrollment management for school administration. Actions such as; section re-naming, section status, and student status modifications are optimized to be done in the ASSIST system and reflected in the content platform.

Administration: Transfer upgrades

When transferring students between your schools the ASSIST system will retain a copy of the student progress in their previous school's enrollments for easy revision of student course status.

Select	Section	Teacher	Grade Level	Grade	Credits	Possible Credits	Status	Action
<input type="checkbox"/>	Algebra II (20-21)	Teacher, Dual Diploma	ES 8th	4.		1.0	Withdrawn
